

# IZA Personnel

In a short period of time, IZA has established a successful staff of researchers and employees in information, documentation, and communication. IZA researchers are involved in various research projects under the leadership of the IZA Program Directors. The shape of IZA research programs and labor market policy consultancy is determined by the IZA Research Director and the IZA Director of Labor Policy. The IZA Director is responsible for the general direction of IZA's research activities.
