We invite you to apply as a RESEARCH ASSISTANT
(12 hours/week, starting September 2022)
to work on scientific research projects in the field of labor economics and the economics of education

Key requirements
- Excellent Bachelor/Master’s degree in Economics
- Good knowledge of empirical economic research and econometrics
- First experience with statistical software (preferably Stata)
- Willingness to work independently and to acquire necessary technical skills

Job description
- Assistance in research projects of Dr. Ingo Isphording in the field of labor markets and education economics
- Preparation of data and performance of data analyses using the statistical software package Stata
- Data and literature research
- Quality checks of publications

Other valuable qualifications
- Interest in a scientific career
- Interest in current issues of the labor market and education economics
- Advanced programming skills, e.g. in Python, Java, R, etc.

What we offer
- Active participation in an international research institute
- Experience in empirical economic research and in dealing with „real-life“ data
- Flexible working hours, possibility to work from home, challenging teamwork, and good pay

The Institute
IZA – Institute of Labor Economics is the hub of a global network of scholars who work with our local research teams to create a sound economic understanding of how labor markets work and how labor market policies perform. We disseminate relevant knowledge about the working world to the general public, political actors and economic players, and contribute to the future of labor research by supporting young scholars on their paths to becoming tomorrow’s leading academics.
